

BULLETIN NUMBER GT538, 16 APRIL 1992

Sales Suite version 6.2 available

TIS Software is proud to announce the availability of Sales Suite version 6.2 with immediate effect.

Sales Suite version 6.2 is similar to version 6.1 in functionality – however the bugs and shortcomings which have made version 6.1 so unpopular have been resolved. Version 6.1 will no longer be available from 31 May 1992 and will not be supported by TIS Software from 31 December 1992.

We recommend that all version 6.1 sites are updated to 6.2 in summer or autumn. We would foresee solving any future version 6.1 problems only in version 6.2.

Version 6.2 is available free-of-charge (not even a copy charge is payable) to users of version 6.1 with a service contract until 31 December 1992.

Version 6.2 consists of the following modules:

- IC 6.2 Stock Control
- OP 6.2 Sales Order Processing
- RE 6.2 Sales Suite Recovery
- SL 6.2 Sales Ledger
- SN 6.2 Sales Analysis
- VC 6.2 Invoicing

We recommend that any resellers interested in learning more about this release order MSSRV6.2 – the sales suite version 6.2 release notice. This release notice is the only new piece of documentation for version 6.2.
