Autozaps

RUN 7014

This is a three monthly run of autozaps which contains all zaps since run 7011. Autozap Enquiry is also distributed with this run.

The autozaps diskette contains a number of recovery programs which may be required by the following zaps:

- | | | |
|-------------------------|------------|----------|
| 1. Purchase Ledger 7.0 | zaps 8 & 9 | - PLEEC |
| 2. Payroll 6.0A | zap 52 | - PRACC |
| 3. Sales Analysis 6.1 | zap 18 | - SDRBLD |
| 4. Creditors Ledger 3.0 | zap 7 | - SUPPTO |
| | | - BA30dG |

Refer to the zap descriptions for further information on running the above programs.

To reiterate Reseller Bulletins 532 and 533, a problem may occur in Payroll end of year. The problem is that the NI information may be excluded from the P60's. If this occurs, run the program PREYF (included on the autozap diskette) and reprint the P60's.

The repackaging for Order Processing 6.1 zap 56 (omitted from run 7011) is included on the diskette for this run. Sales Analysis 6.1 zap 17 was excluded from runs 7010 and 7011 due to problems with the repackages. Part A of zap 17, SN550, is also included on this diskette. The other components will not be released. The corrections have been made for version 6.2.
