

BULLETIN NUMBER GT550, 24 JULY 1992

Global 3000 Reseller Training Courses

Following the release of the Global 3000 Distribution suite and taking into account feedback from previous courses, we have decided to extend the reseller training courses. This means that the Global 3000 Distribution Modules Overview will now be two days rather than one. The one-day Accounts Modules course remains unchanged.

The courses are aimed at reseller or user staff who need to know the features and facilities of Global 3000. The aim is to show how the modules relate to real business needs. This is brought out by both lecture sessions and case studies. At the end of the course the attendees will have a clear idea of the look, feel and structure of the modules, and knowledge of the distinctive features of the software. A set of course notes is provided to aid revision and a buffet lunch provides an opportunity for informal discussion.

Please find course content enclosed.

The dates for the next two months are:

	Days	Price	July	Aug
Global 3000 Accounts Overview	1	200	22	19
Global 3000 Distribution Overview	2	200	23-24	20-21

During July and August the price of the two-day Global 3000 Distribution Overview course is to be held at the one-day rate of £200 plus VAT (the standard 40% discount for resellers paying in advance is available on both the courses). However, course places are on a first confirmed first served basis, so please send your booking form and cheque today.
