SUPPORT OF VERSION 7.0

Version 7.0 of System Manager will be available for sale until 31st January 1997. It will be supported until 31st January 1998.

The three configuration volumes made obsolete by this release (5524, 5530 and 5531) will be `available for sale' only until 31st March 1993 and supported until 30th November 1993. Users with AIX version 3.1 and HP-UX version 7 will therefore need to upgrade to AIX version 3.2 and HP-UX version 8 respectively by these dates.
