BULLETIN NUMBER GT569, 11 NOVEMBER 1992

Autozap Run 7020

This is a three monthly run of autozaps which contains all zaps since run 7017. Autozap enquiry is also distributed with this run.

Creditors Ledger 3.0 zap 15 requires a recovery program to update the database. This frame, ALLOC, is included on the diskette. See the zap description for further details.

Note Sales Analysis 6.2 zap 5 to solve a problem in posting to the database. Spurious program checks can occur if the database becomes full during posting. This zap prevents these program checks and displays an error message if the database becomes full.
