### Autozap Run 7022

This is a monthly run of autozaps which contains all zaps since run 7021.

There are a number of zaps and repackages for the software released for the changes in VAT legislation. Please read the zap descriptions carefully for these zaps.

Zap OP-6.3-10 may require a recovery program to be run on the data. This program, ODTDX, is included on the autozap diskette. It can only be run if no orders have been added using OP 6.3 where the invoice or delivery address has been altered.

Zap PL-7.1-02 requires program AUTOPY to be run on the data to correct the batch total for autopayment batches.
