BULLETIN NUMBER GT592, 9 MARCH 1993

Autozap Run 7023

It has been discovered that the serial file (07023SER) distributed with the above autozap run is corrupt.

There are three possible recovery paths:-

1. Take a copy of the serial file from a previous autozap run (ie 07022SER), rename it to 07023SER and copy it to this run's diskettes.

2. Download a non corrupt version of 07023SER from the bulletin board.
    Note: the file is 7023SER.zip on the BBS. This file will require PLUNTX to convert it once you have downloaded it.

3. Contact Debra Burling at our City office to be supplied with a non-corrupt version by post.
