BULLETIN NUMBER GT596, 19 MARCH 1993

Changes of default versions

As documented in bulletin GT578, the default version of a number of Global modules will change on the weekend of the 20th March 1993. These are as follows:-

Global 2000   The default versions of Sales Ledger, SOP, Invoicing, Sales Analysis, Sales Ledger Autoposting, Sales Suite Recovery and Manufacturer will change to version 6.3.

The default version of Purchase Ledger, Purchase Ledger Autoposting, Purchase Order Manager and Purchase Ledger Tailoring will change to version 7.1.

The default version of BACS will change to version 6.1.

The default version of Job Costing will change to version 1.4.

Please also note that the default version of Payroll from this weekend will be 6.1 not version 6.0B.

Resellers who order the ledger pack should take special note of this change as the contents of the ledger pack will change on the weekend of the 20th March 1993.

Global 3000   Notwithstanding the delay in the production of version 4.1A the default version of Global 3000 will be 4.1A.
