BULLETIN NUMBER GT601, 5 APRIL 1993

Autozap Run 7025

THIS AUTOZAPS DISKETTE

This is a monthly run of autozaps which contains all zaps since run 7024.

This run contains a number of zaps to allow other modules to run with Payroll 6.1. Please note that these zaps will apply automatically to installed software as Payroll 6.1 is the only supported version from 6th April 1993. When zapped, the software will not interface with Payroll 6.0B.

The recovery for Purchase Ledger 7.1 zap 16 requires a program to be run to recalculate the settlement discount dates. This program, PLDISC, is included on the autozap diskette.

GLOBAL 3000 ZAPS – INFORMATION FOR RESELLERS WITH SOURCES

From Autozap Run 7026 onwards the Autozap bulletins will include details of changes to the `zaps' documents which go out with Global 3000 sources. These `zaps' documents explain the zaps to Global 3000 in terms of edits to be made to the source files and can be ordered using the documentation order form.
