

BULLETIN NUMBER GT617, 29 JUNE 1993

## \$COBOL available on more System Manager (Unix) computers

Technical bulletin GT591 (24 February 1993) announced the release of \$COBOL on some System Manager (Unix) configurations. At the time of the initial announcement, three System Manager (Unix) platforms had been upgraded to support \$COBOL.

We are now pleased to announce that the following BACNATs have been upgraded to support \$COBOL:

- 5520MIPS RISC/os BACNAT variant 3.104
- 5523Sun SPARC SunOS 4.1.x BACNAT variant 3.105
- 5540HP-UX V8 (3½" floppy) BACNAT variant 3.99
- 5541HP-UX V8 (tape) BACNAT variant 3.99
