Autozap Run 7038

This is a three monthly run of autozaps which contains all the zaps since run 7035.

Autozap enquiry is also distributed with this run.

A number of recovery programs are included on the autozap diskette.

Product	Zap	Program
Global 2000 Purchase Ledger V6.1	70	PL61S0
Global 2000 Purchase Ledger V7.0	25	PL70S0
Global 2000 Purchase Ledger V7.1	33	PL71S0

These programs replace programs PL61RH, PL70RH and PL71RH which were distributed on autozap run 7035.

Running PL61RH, PL70RH and PL71RH may lead to corruption on the transaction file (PLT). It is recommended that the relevant program provided on this autozap run be run on the Purchase Ledger data if PL61RH, PL70RH or PL71RH has already been run. Print the reconciliation report to ensure that the ledger is in balance.

Payroll Version 6.2

Zap PX–6.3–06 is distributed on this autozap run which allows Manufacturer V6.3 to interface with Payroll V6.2. Zaps to allow Job Costing V1.4 to interface with Payroll V6.2 are not on this autozap run, but can be obtained from the Service Centre or downloaded from the Bulletin Board.
