

# **Global Record Layouts 2.0L, Payroll Autoposting and Tailoring Kit version 6.2 now available**

Following the release of Global Payroll version 6.2, we are pleased to announce the release of the following modules:

Global Record Layouts version 2.0L

This replaces Record Layouts version 2.0K and has been updated with Global Payroll version 6.2 Record Layouts. An A4 format set of Global Record Layouts Notes version 2.0L (MRLNV2.0L) is supplied with this module.

Global Payroll Autoposting Version 6.2

This replaces Autoposting version 6.0A and is supplied with a set of A4 format Global Payroll Autoposting version 6.2 Notes (MYXNV6.2).

Global Payroll Tailoring Version 6.2

This replaces Global Payroll Tailoring version 6.1. It contains components from Global Payroll version 6.2. The module is supplied with a set of A4 format Global Payroll Tailoring version 6.2 Notes (MYRNV6.2).

The default versions of Record Layouts, Payroll Autoposting and Payroll Tailoring change from today. The previous versions are no longer available. The previous versions will be supported until the end of this month.

## **GLOBAL PAYROLL LABEL PRINT**

This has been released as zaps 01 and 02.

Zap PR-6.2-01 is to document a program which has been repackaged to effect the label print function.

Zap PR-6.2-02 is to enable the label print menu option line (removes asterisk).

These zaps will be available on BBS and on autozap run 7039.

## **GLOBAL PAYROLL VERSION 6.2 ZAP 01**

### **Purpose of repackage**

This repackage is to provide Label Print facility.

### **Circumstances for urgent application**

None

### **Recovery Required**

None

### **Essential preceding zaps**

None

### **Manual application of zap**

This zap contains a number of new programs and/or files. To apply this zap manually, please refer to your Reseller and/or Operating Manual. The new files are tabulated as follows:-

<u>Part</u>	<u>Type</u>	<u>Distributed</u>	<u>Component</u>	<u>Installed</u>	<u>Date Before</u>	<u>/</u>	<u>After</u>
1	P	P.PR3	PR354	P.PR	01/05/94		01/06/94

## **GLOBAL PAYROLL VERSION 6.2 ZAP 02**

### **Purpose of zap**

This zap is to enable menu option lines by removing asterisks. It allows label print menu option to display line number '5', and create CM3000 interface file menu option to display line number "3".

Please note that the menu option line "create CM3000 interface file" should not be used until further announcement.
