

Global Payroll V6.2 Autoposting to Global 3000 Cash Manager V4.2 now available

Following the release of Global Payroll version 6.2 we are pleased to announce that Global Payroll 6.2 to Global 3000 Cash Manager autoposting is now available. This is documented in the attached set of notes (MPRNV6.2 – Global Payroll Version 6.2 Notes).

This is being released as Payroll 6.2 zap 5 which is described overleaf. This zap will be distributed on the next autozap run (likely to be Autozap run number 7041). If you require the zap sooner, please contact the Service Centre.

Global Payroll version 6.2 zap 5

This repackage contains the new Global Payroll V6.2 to Global 3000 Cash Manager V4.2 autoposting program, and enhancement to Global 3000 General Ledger posting interface.

Circumstances for urgent application

None. However all sites should include this zap in their regular monthly take-on regardless of whether or not they use Global 3000 Cash Manager version 4.2.

Recovery Required

None.

Essential preceding zaps

None

Manual application of zap

This zap contains a new program and a data file. To apply this zap manually, please refer to your Reseller and/or Operating Manual. The new files are tabulated as follows:

| <i>Part</i> | <i>Zap type</i> | <i>File type</i> | <i>Component</i> | <i>Date before</i> | <i>Date after</i> |
|-------------|-----------------|------------------|------------------|--------------------|-------------------|
| 1 | R | P | PR610 | 1/5/94 | 1/6/94 |
| 2 | R | D | PR-Error | 1/5/94 | 1/6/94 |
