TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT717, 3RD NOVEMBER 1994

Global System Manager Windows Option (GUI) V1.1c

Since the release of the Global System Manager Windows Option (GUI) at the Global Reseller Conference on 6th October development has been continuing apace.

A new version of the Global System Manager Windows Option (version 1.1c), which includes support for buttons and a "cut and paste" option, is now available.

Please fax Alan Underwood directly on (071 831 2116) to obtain a copy of version 1.1c of the Global Windows Option.

All resellers who are currently evaluating the Global System Manager Windows Option should be aware that the evaluation period ends on Friday 11th November 1994. Please fax details of all bugs and suggestions for improvements to Alan Underwood (on the above fax number) by 17.30 on Friday 11th November 1994.
