TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT730, 20 DECEMBER 1994

Global 3000 Version 4.2 Asset Register sources now available

Following the release of Global 3000 Asset Register version 4.2 earlier this month, the sources are now available, as module WA.

These sources are available to resellers who have signed a "Global 3000 Source Contract" which defines the conditions under which sources are supplied; this is explained in section 10.4.3 of the reseller handbook. A Global 3000 Source Contract can be obtained from the City despatch department; please quote reference "FGSA1291".

Module WW, the Global 3000 Documentation V4.2, has also been upgraded to include the Global 3000 Asset Register V4.2 manual.

Module WX, the Global 3000 Development Tools V4.2, has also been upgraded to include Global 3000 Asset Register V4.2 in System Rebuilder.

The attached document explains the detail of module WA.

WA GLOBAL 3000 ASSET REGISTER SOURCE

GENERAL DESCRIPTION

List price is £1,500 irrespective of number of screens. Reseller discount on end-user source sales is not applicable (i.e. 0%). Software for a reseller's own use must be ordered at end-user prices.

DESCRIPTION OF VERSION 4.2

This is the source of version 4.2 of Asset Register. To use it, the following must be installed:

·   version 8.0 of Speedbase Development

·   version 4.2 of Global 3000 Product Maintenance

·   version 4.2 of Global 3000 Asset Register.

The following four modules should also be used (the first two are essential, the other two are optional):

·   version 4.2 of the Global 3000 Source Routines

·   version 4.2 of the Global 3000 Development Tools

·   version 4.2 of the Global 3000 Documentation

·   version 4.2 of the Global 3000 Product Maintenance source.

Documentation provided with this version is listed on the following lines:-

·   for software order types S, D or M MWANV4.2 (Asset Register Source Notes V4.2)
