

**TECHNICAL BULLETIN FROM GLOBAL BUSINESS  
SYSTEMS**

**BULLETIN NUMBER GT731, 22 DECEMBER 1994**

**Global 2000 Purchase  
Ledger V7.1 Cheque Layout**

The banks are introducing new cheque layouts that all new cheques must adhere to. The new layout becomes mandatory in December 1995. Purchase Ledger V7.1 has been amended to include a new option to print cheques which conform to the APACS standard 3 format.

This enhancement is available as zap PL-7.1-47 and is described in enhancement note MPLEV7.1 attached to this bulletin. It replaces tailoring zap PL-7.1-43.

An equivalent enhancement for Payroll V6.2 will be available shortly.
