TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT740, 16 FEBRUARY 1995

Autozap run 7047

This is a six monthly run of autozaps which contains all zaps since run 7041. However, due to the number of repackaged components included on the run and the estimated time taken to generate all reseller and end user copies, the autozap run has been split. Resellers and end users with Global System Manager related products, Global 2000 products and/or Global 3000 V3.0 products only have received a copy of the autozap run excluding all Global 3000 V4.1A and V4.2 repackages and related recovery programs. Resellers and end users with Global 3000 V4.1A and/or V4.2 products have received the entire run.

A copy of Autozap enquiry is also distributed with this run.

A number of recovery programs are included on the autozap diskette.

Product	Zap	Program
Upgrade from Global 2000 SL to 3000 DL	2	REC005
Global 2000 Sales Ledger V6.3	43	REC006
Global 3000 Debtors Ledger V4.2	41	SLDTE
Global 3000 Debtors Ledger V4.2	58	REC010
Global 3000 General Ledger V4.2	28	GLSJUP
Global 3000 Creditors Ledger V4.2	46	REC009
Global 3000 Creditors Ledger V4.2	69	CLREV
Global 3000 Sales Order Processing V4.2	60	REC011
Global 3000 Sales Order Processing V4.2	60	REC012
Global 3000 Sales Order Processing V4.2	60	REC013
Global 3000 Sales Order Processing V4.2	69	REC014
Global 3000 Sales Order Processing V4.2	69	REC015
Global Intrastat	1	REC007

Please refer to the zap descriptions for further details.

AUTOZAPS

A problem with the Z copy function in AZINS has been found where zaps and/or repackages can be omitted when creating all zaps for the run or for a product. This has now been resolved.

Please note that where a program has been included as part of a repackaging zap more than once on a run, only the latest version of the program will be included on the autozap diskettes. This will lead to "missing parts" of some of the zaps to be reported when creating the repackages. Use the I to ignore option to continue.

For Global 3000 users in particular, please be aware that programs of the same name may have been repackaged for different versions of the software and included on the same run. It is, therefore, recommended to create and apply the repackages on a module by module basis.

GLOBAL REPORTER

Please note that this run contains the Global Reporter User Data Retrieval Program for C-ISAM format Speedbase databases, as announced in Global Technical Bulletin GT697. This is repackaging zap BR-1.0-10.

GLOBAL 3000 ASSET REGISTER

This run includes a tailoring zap for Global Reporter, zap BR-1.0-09, which amends the formatter for numeric fields. It must be applied to the Global Reporter programs residing in the Global 3000 program unit if Asset Register V4.2 is in use.

GLOBAL 2000 ENHANCEMENTS

PURCHASE LEDGER V7.1

This run includes an enhancement to Purchase Ledger V7.1 to allow cheques to be printed to conform to the APACS 3 format. This enhancement is released as zap PL-7.1-47. Please refer to Global Technical Bulletin GT731 and enhancement notes MPLEV7.1.

PAYROLL V6.2

The option to submit end of year returns on magnetic media to the DSS is now available to carry out test submissions. Zap PR-6.2-38, included on this autozap run, needs to be applied.

This function will be fully available by the end of the tax year, as part of PR V6.3.

GLOBAL 3000 ENHANCEMENTS

A number of enhancements to the Global 3000 V4.2 applications have been issued as zaps included on this autozap run.

Zap

MZAEV4.2 – P&L on Disposal Report   ZA4207
MZDEV4.2 – Customer Enquiry Print   ZD4248
                                                    ZD4250
MZGEV4.2 – Standing Journals over Year End   ZG4228
MZGFV4.2 – Revised Statement Print   ZG4234
MZGGV4.2 – Batch Proof Listing   ZG4243
MZGHV4.2 – Budgets/Forecasts by Company   ZG4244
MZIEV4.2 – Stock Transfers   ZI4210
                                                    ZM4213
MZMEV4.2 – Stock SOP, POP Enquiries   ZM4215
MZPEV4.2 – Logged Invoice Enquiry   ZP4252
MZPFV4.2 – Supplier Enquiry Print   ZP4272
MZSEV4.2 – Enhancements to Order Entry,   ZS4254
            Invoice Print   ZS4257
                                                    ZS4258
                                                    ZS4259
MZSFV4.2 – Restrict Sales Orders by Location   ZD4249
MZSGV4.2 – Specify report for Invoice and Credit   ZS4264
            Note print   ZM4217

A copy of the enhancement notes is available from the Software Production department.

GLOBAL 3000 ZAPS

All bug fixes and enhancements to Global 3000 applications are now in the form of repackaged programs. The convention for updating the date of a program by one month for a repackage has been changed. From this autozap run onwards, all repackages produced for Global 3000 applications will increase the date of the program by one day, starting at 01/01/95.

As both zaps and repackages are still produced for Global System Manager related products and Global 2000 products, the date handling on programs for these products remains the same.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps. Please refer to Global Technical Bulletin GT735 for further details.
