

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT742, 9 MARCH 1995

Autozap run 7048

This is a monthly run of autozaps which contains all zaps since run 7047.

Two recovery programs are included on the autozap diskette.

<i>Product Program</i>	<i>Zap</i>	
Global 3000 conversion of SL V6.3 to DL V4.2	4	CLOSE
Global 3000 Sales Order Processing V4.2	76	
COMCRD		

Please refer to the zap descriptions for further details.

PAYROLL V6.3

This autozap run contains two zaps required for Payroll V6.3 to integrate with Job Costing V1.4 and BACS V6.2. These are zaps JC-1.4-07 and PB-6.2-05, respectively.

GLOBAL 3000 ZAPS

All bug fixes and enhancements to Global 3000 applications are now in the form of repackaged programs. The convention for updating the date of a program by one month for a repackage has been changed. From autozap run 7047 onwards, all repackages produced for Global 3000 applications will increase the date of the program by one day, starting at 01/01/95.

As both zaps and repackages are still produced for Global System Manager related products and Global 2000 products, the date handling on programs for these products remains the same.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps. Please refer to Global Technical Bulletin GT735 for further details.
