TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT743, 16 MARCH 1995

End of February product release report

TABLE 1 – PROJECTS RECENTLY RELEASED FROM QUALITY CONTROL		
Project Summary	**Project No Bulletin No**	**Release Date Release Vers**
Apple workstation colour TAP.	95053	08/03/1995
GSM support for AUX 3.1.	95054	08/03/1995
GL 4.2 Budget and Forecast report by co.. This enhancement affects Global 3000 General Ledger V4.2. It allows the user to report budgets and forecasts by company. Previously they could only be reported by profit centre. This enhancement is available on Autozap run 7047.	95004 GT740	13/02/1995 4.2
AR 4.2 P & L on Disposals report. This enhancement affects Global 3000 Asset Register V4.2. It provides the facility to report asset disposals, showing profit and loss on disposal. This enhancement is available on Autozap run 7047.	95005 GT740	13/02/1995 4.2
Print option – 3000 Creditors Supp Enq.. This enhancement affects Global 3000 Creditors. The Supplier Enquiry program now includes a print option. This enhancement is available on Autozap run 7047.	94169 GT740	13/02/1995 4.2
Payroll test transmission for DSS. Payroll 6.2 has been enhanced to allow the end of year reports to be placed on a diskette for transmission to the DSS. This release allows test transmissions to be made but Payroll V6.3 will be required for live submissions for the end of tax year '94/'95.	94123 GT740	13/02/1995 6.2
Source for Autozap run 7047. Update of Global 3000 source modules to reflect amendments released with Autozap run 7047.	95041 GT740	13/02/1995
Autozap run 7047. 6 Monthly Autozap run containing all zaps released from August 1994 to January 1995. Due to the size of this 6 month run the distribution has taken longer than expected. All Autozap diskettes should be despatched by 8 March 1995.	95040 GT740	13/02/1995

TABLE 2 – PROJECTS IN QUALITY CONTROL		
Project Summary	Project No Bulletin No	Scheduled Date Scheduled Vers
Autozap Run 7048. Monthly run containing all zaps approved during February. **Status:** On schedule.	95057	13/03/1995
GSM V8.1 Tranche 1 (BOS,DOS,Novell). Due to problems found with GSM V8.1 (Unix) the software included in tranche 1 of the release of GSM V8.1 will be released in two phases. This phase covers GSM (BOS, DOS & Novell). Software to be released as part of this project will be as follows:- · GSM (BOS) · GSM (DOS) · GSM (Novell) including DMAM/Btrieve and Novell self certification. · Speedbase Presentation Manager · Global Configurator **Status:** On schedule.	95006	27/03/1995
GSM Windows Option (GUI) V1.2. This product requires GSM V8.1 and will be released at the same time as GSM V8.1. **Status:** On schedule.	95023	27/03/1995
Source for Autozap Run 7048. Update of Global 3000 source PGK's to ensure that the source is in-line with the amendments released in Autozap run 7048. **Status:** On schedule.	95065	13/03/1995

TABLE 3 – FUTURE PROJECTS		
Project Summary	**Project No Bulletin No**	**Scheduled Date Scheduled Vers**
GSM Btrieve access. Speedbase development and System Manager allowing direct Btrieve access. This includes associated Reporter, Global 3000 Applications and SPAM developments. This development will not be done as a separate version. Instead we will treat this as an enhancement to GSM 8.1. It will allow Speedbase databases to be held as Btrieve files on a Novell server using an NLM database server. **Status:** The timing of the Beta and Final releases are yet to be confirmed. It is expected that an evaluation release will be available during April.	95072	
Global 3000 BOM & WOP. **Status:** Software due into QC during March 1995. No release date has yet been scheduled.	95052	
Global Connections 1.0. **Status:** No date for delivery into QC is currently available. For this reason no Scheduled release date has been given.	95055	
Payroll V6.3. Details of this enhancement are documented in the API released with bulletin GS106. **Status:** On schedule.	95049	15/03/1995
Cash Manager 2000 6.1 BETA Test. A new version (6.1) of Cash Manager 2000. Statement Reconciliation now allows the user to step through unreconciled items and to mark them off against a bank statement. It also allows details from the bank statement to be keyed directly. Autopostings has been generalised allowing information to be posted from any other package. Transaction Entry now has improved dialogue, particularly when entering nominal analysis. Posting to Nominal Ledger is now session based rather than period based. **Status:** Software due into QC 13 March 1995.	94009	29/03/1995 6.1 Database

GSM V8.1 Tranche 1 - GSM (Unix). Release to QC of this section of GSM V8.1 has been delayed due to problems found with the CISAM interface. It has therefore been split from project 95006 which will exclude GSM 8.1 (Unix). Software to be released as part of this project will be as follows:- · GSM (Unix) · Global File Converters **Status:** Due to the above noted problems no date for release into QC is currently available.	95066	
Un-consolidated payments for Debtors. This enhancement affects Global 3000 Debtors Ledger. There is now a new option to allow un-consolidated payments to be posted to Global 3000 General Ledger. **Status:** On schedule. Due to be released with March Autozaps (distributed during April).	95069	10/04/1995 4.2
Un-consolidated payments for Creditors. This enhancement affects Global 3000 Creditors Ledger. There is now a new option to allow un-consolidated payments to be posted to Global 3000 General Ledger. **Status:** On schedule. Due to be released with March Autozaps (distributed during April).	95070	10/04/1995 4.2
GSM V8.1 Tranche 2. Speedbase development. **Status:** Due to QC during May 1995. No firm release date currently available.	95067	
GSM V8.1 Tranche 3. Cobol development. **Status:** Due to QC during June 1995. No firm release date currently available.	95068
