**BULLETIN NUMBER GT 748, 5 APRIL 1995**

## **Global System Manager update**

### **COLOUR TAPS FOR APPLE A/UX**

Four new Terminal Attribute Programs (TAPs) for the Apple Quadra series of computers running A/UX have been released.

The new TAPs are supported on Apple Macintosh computers running the VICOM terminal emulator software as supplied by Vicom Technology Ltd:

- 601 VICOM VT-420 emulator, colour, extended keyboard;
- 602 VICOM VT-420 emulator, colour;
- 603 VICOM VT-420 emulator, monochrome, extended keyboard;
- 604 VICOM VT-420 emulator, monochrome.

Please note that not all versions of the VICOM Communications Software support the VT-420 emulation mode expected by Global System Manager. The TAPS were developed using the VICOM Multiterm product.

### **GLOBAL SYSTEM MANAGER (A/UX) NOW SUPPORTED ON A/UX VERSION 3.1**

Global System Manager (A/UX) is now available on A/UX Version 3.1 (configuration code 5526). Please find attached the Configuration Details (C5526).

### **GLOBAL SYSTEM MANAGER SUPPORTS NOVELL NETWARE V4.1**

As a member of the Novell Professional Developers Program, Global Business Systems has been evaluating Global System Manager with the beta-test version of Novell NetWare V4.1.

We are pleased to announce that Global System Manager (versions 8.0 and 8.1); nucleus variant 4.2, and later; NLM variant 1.10, and later operate with, and are supported on, Novell NetWare V4.1.
