

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT760, 5 JUNE 1995

Autozap Run 7051

This is a monthly run of autozaps which contains all zaps since run 7050.

Several recovery programs are included on the autozap diskette.

| <i>Product</i> | <i>Zap</i> | <i>Program</i> |
|---|-------------------|-----------------------|
| Global 2000 Purchase Ledger V7.1 | 51 | PLZR02 |
| Global 3000 Sales Order Processing V4.2 | 88 | TDSET |
| Global Intrastat V4.2 | 3 | REC019 |

Please refer to the zap descriptions for further details.

GLOBAL PAYROLL V6.3

This autozap run includes zaps PR6319 and PR6320. Zap PR6319 allows P45 details for current employees to be amended and zap PR6320 allows a final payslip date later than the leaving date to be entered for a leaver. These amendments to Payroll V6.3 are detailed in Technical Bulletin GT756.

AUTOZAPS

A copy of the Autozap Enquiry will be placed on the Bulletin Board on a monthly basis, in addition to the copy distributed to resellers on a quarterly basis. A new option has been introduced to Autozap Enquiry as a Global Reporter program to produce zapped component listings. For a given product, the report prints the components in program order with the current program date, latest zap number, zap type and history. A table of all zaps and repackages required to bring the program library up to date is also included.

The new reporting option and the availability of Autozap Enquiry on a monthly basis will enable resellers to check more easily that sites are running with up to date programs.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps.
