Autozap run 7053

This is a six monthly run of autozaps which contains all zaps since run 7047. However, due to the number of repackaged components included on the run and the estimated time taken to generate all reseller and end user copies, the autozap run has been split. Resellers and end users with Global System Manager related products, Global 2000 products and/or Global 3000 V3.0 products only have received a copy of the autozap run excluding all Global 3000 V4.1A and V4.2 repackages and related recovery programs. Resellers and end users with Global 3000 V4.1A and/or V4.2 products have received the entire run.

A copy of Autozap Enquiry is also distributed with this run.

Several recovery programs are included on the autozap diskette.

Product	Zap	Program
Global 2000 Purchase Ledger V7.1	51	PLZR02
Global Payroll V6.2	39	PRTAXD
Global 3000 conversion of SLV6.3 to DLV4.2	4	CLOSE
Global 3000 conversion of PLV7.1 to CLV4.2	3	CLOSCL

Global 3000 Sales Order Processing V4.2	88	TDSET
Global Intrastat V4.2	2	REC016
Global Intrastat V4.2	3	REC019

Please refer to the zap descriptions for further details.

AUTOZAPS

Autozaps handles a maximum of 99 zaps per version of a product. A new version number will be allocated to products which exceed the limit.

Creditors Ledger V4.2 has reached the limit imposed by Autozaps and has been allocated version number 4.2B. New zaps will be created using zap number ZP–4.2B–01 onwards. Zap ZP–4.2–99 is a repackage of the product tag file !ZP and updates the version number checked by Autozaps from V4.2 to V4.2B.

GLOBAL 2000 ENHANCEMENTS

PAYROLL V6.3

This autozap run includes zaps PR6319 and PR6320. Zap PR6319 allows P45 details for current employees to be amended and zap PR6320 allows a final payslip date later than the leaving date to be entered for a leaver. These amendments to Payroll V6.3 are detailed in Technical Bulletin GT756.

NOMINAL LEDGER V6.0

Zap NL-6.0-91 enhances Nominal Ledger by allowing dates later than 31/12/99 to be entered.

Zap NL-60-92 allows new year's ledgers to be created on network systems by accessing the 600 range of units. Previously the option failed with either "Local machine must have a fixed disk" or "Not enough space to create ledger".

GLOBAL 3000 ENHANCEMENTS

Three enhancements to the Global 3000 V4.2 applications have been issued as zaps on this autozap run.

Enhancement Notes	Enhancement Zap
MZDFV4.2 – Non Consolidated payments	ZD4268
	ZD4269
MZPGV4.2 – Non Consolidated payments	ZP4286
	ZP4287
MZOEV4.2 – Purchase Invoice Purge	ZO4228

A copy of the enhancement notes is attached to this bulletin.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps.
