

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT784, 31 JANUARY 1996

Release of Global System Manager V8.1 revision V8.1d

This bulletin announces the release of Global System Manager V8.1 revision V8.1d. V8.1d is the second external revision of Global System Manager V8.1 (V8.1c was the first – refer to Global Technical Bulletin GT770, 11 August 1995).

Global System Manager V8.1 revision V8.1d is fully described in the Global System Manager V8.1 Notes (document MSMNV8.1). This document will be despatched with all Global System Manager orders generated after Friday 19-Jan-1996.

Global System Manager V8.1 revision V8.1d is available free of charge for all users on service who are upgrading from GSM V8.1 (or GSM V8.1 revision V8.1c).
