

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT790, 14 FEBRUARY 1996

Autozap Run 7059

This is a six monthly run of autozaps which contains all zaps since run 7053.

Several recovery programs are included on the autozap diskette.

<i>Product</i>	<i>Zap</i>	<i>Program</i>
Global 3000 Stock Control V4.2	31	RUNROL RECROL
Global 3000 Product Maintenance V4.2	40	REC022
Global 3000 Creditors Ledger V4.2 (B)	17	REC021
	31	CLCURR

Please refer to the zap descriptions for further details.

GLOBAL 2000 APPLICATIONS

NOMINAL LEDGER V6.0

Zap NL-6.0-91 has been produced to allow dates later than 31/12/99 to be handled. This enhancement will only work on GSM V7.0 and later and requires the "century start date" in \$CUS to be set to 1950. If zap NL-6.0-91 is applied to Nominal Ledger running on an earlier version of GSM, a TRAP or PGM CHK will occur on entering transactions.

PURCHASE LEDGER V7.1

A problem has been discovered with program PLZR02, produced as recovery for zap PL-7.1-51 issued on Autozap run 7051. The problem is that the value of logged invoices is included in the supplier balance. The recovery program has been corrected and a new version of the program has been included on the autozap diskette, dated 06/09/95.

If PLZR02 issued with Autozap run 7051 has been run on the Purchase Ledger data, you will need to run the new version. Print the Reconciliation report to confirm the logged invoice and account balances are correct.

GLOBAL 3000 APPLICATIONS

Zap ZM-4.2-42 included on this autozap run has been created to allow the installation of Global 3000 Bill of Materials, Works Order Processing and the new Data Conversion from Global 2000 to Global 3000 module. Apply zap

ZM-4.2-42 to the Product Maintenance installation diskette and (re-)install Product Maintenance before installing any of these modules.

Global 3000 Bill of Materials and Works Order Processing are now available from Production (refer to bulletin GT777). The Data Conversion module will be released shortly.

GENERAL LEDGER V4.2

An enhancement to General Ledger V4.2 has been included as a zap on this autozap run.

Zap ZG4260 enhances the handling of budgets and forecasts on schedules in Statement Print. Please refer to the zap description for further details.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps.
