

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT798, 21 MAY 1996

Autozap Run 7062

This is a three monthly run of autozaps which contains all zaps since run 7059.

Several recovery programs are included on the autozap diskette.

<i>Product</i>	<i>Zap</i>	<i>Program</i>
Global Payroll V6.4	2	PRR1
		PRR2
	14	PRAILF
Global 3000 Purchase Order Processing V4.2	36	POPLCS

AUTOZAPS

A problem has been found with zap ZS4B38 which has been approved as part of run 7062 and appears on the Autozap run print. The repackaged component has been excluded from the autozap diskette.

Please note that this autozap run contains zaps for V4.2E and V4.2F of the Global 3000 enhancement stream. It is recommended that the Global 3000 zaps are created on a module by module basis to avoid the possibility of updating the Global 3000 V4.2 program libraries with programs for a later version of the software.

GLOBAL PAYROLL

This autozap run contains zaps PR6412, PR6414, PR6415 and PR6419 detailed on technical bulletin GT795.

GLOBAL 3000 ENHANCEMENTS

An enhancement to Sales Order Processing V4.2 has been issued as a zap on this autozap run.

Zap ZS4B32 allows services and extras to be printed on delivery notes. It must be applied in conjunction with zap ZM4248 which updates Product Maintenance to allow the service and extra products to be specifically selected for inclusion on delivery notes.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications V4.2

have recently been revised to include only the most recent version of each source. This will continue on a monthly basis in line with Autozaps.
