

## **TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS**

**BULLETIN NUMBER GT808, 14 AUGUST 1996**

### **Autozap Runs 7063 and 7064**

Monthly autozap runs 7063 and 7064 were due for release during June and July, respectively. However, due to a change in the method of diskette generation there has been a delay in distributing these autozap runs.

We are currently generating autozap run 7065. As this is a six monthly autozap run and contains all zaps on runs 7063 and 7064, autozap runs 7063 and 7064 will not be distributed.

Both autozap runs are available from the Bulletin Board in files AZ7063.ZIP and AZ7064.ZIP. In addition, the repackaged components from these runs for all Global 3000 V4.2 applications are available in libraries of the form P.xx6364 (where xx is the autozap product code) in files G42ZAPS.ZIP (SVL format) and G42ZAPP.ZIP (PLUNTX format) on the Bulletin Board.

Autozap run 7065 is due to be distributed late August.
