TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT813, 4 OCTOBER 1996

Autozap Run 7066

This is a monthly run of Autozaps which contains all zaps since run 7065.

GLOBAL 3000 ENHANCEMENTS

Zap ZO-4.2-44 introduces an enhancement in Invoice Input. If stock costs are not posted to the General ledger the cost of purchases can be optionally analysed to a Cost of Purchases account defined at product group level, rather than to the Goods Received Not Invoiced account defined at system level. This zap must be applied in conjunction with zap ZM-4.2-58 to allow the new accounts to be set up in Product Group Maintenance.

GLOBAL 3000 SOURCES

The source code master diskettes for the Global 3000 applications have recently been revised to include only the most recent version of each source.

GLOBAL SYSTEM MANAGER

Attached to the autozap bulletin are two documents which provide details of the current status of the BACNAT variants created for GSM V8.1 (Unix) configurations.
