Nominal Ledger changes April 1997 Release

Global Business Systems is pleased to announce the release of the remaining enhancement in the current series of Global 2000 Nominal Ledger changes. Project 96593, Multiple Budgets, is now available.

CONTENTS OF ALL CHANGES

Project Summary	Project No Autozap
NL2000 Create New Year modifications. This enhancement affects Global 2000 Nominal Ledger. It improves the performance of Installation and Create New Year under later versions of GSM, allowing data areas to be created across networks (please note that it has not been possible to include any changes for SAA menu updating within this project).	96591 NL-6A-08
NL2000 Multiple Budgets. This enhancement affects Global 2000 Nominal Ledger. It introduces support for multiple budget files which may be used in statements and new smoother data import/export menu options.	96593 NL-6A-11 NL-6A-12
Statement profiles in NL. This enhancement affects Global 2000 Nominal Ledger. It allows lists of companies, departments and account types (queries) to be maintained and used for account selection in statements.	96595 NL-6A-05
Financial statements : second open period. A minor enhancement, optionally allowing actual figures rather than forecast figures to be printed for the second open period.	-- NL-6A-10

APPLYING THE CHANGES

All the above changes are available via the Autozap numbers indicated in the above table. No data upgrade is required for any of the changes.

SUPPORTING DOCUMENTATION

A new set of Nominal Ledger notes covering all the above enhancements can be ordered, free of charge, using the standard documentation form. The document code number MNLNV6.0/33 should be quoted on the order.

GSM REQUIREMENTS

The new Export/Import options released as part of the Multiple Budgets use the new Open TFAM access method. This extension to standard TFAM is available in version 8.1g GSM and all version 8.0 operating systems issued after 14th April 1997. The existing Export and Import menu options in Nominal Ledger are still available for users on older versions of GSM.

AVAILABILITY

Autozaps NL-6A-11 and NL-6A-12 are available from today, the other zaps having been issued previously. A copy of the Autozaps and the Nominal Ledger Notes is available on the Bulletin Board.
