Autozap Run 7071

This is a six monthly run of Autozaps which contains all zaps since run 7065.

Due to the number of repackaged components included on the run, the autozap run has been split. Resellers and end users with Global System Manager related products and/or Global 2000 products only have received a copy of the autozap run excluding all Global 3000 application repackages. Resellers and end users with Global 3000 applications have received the entire run.

A copy of Autozap Enquiry is also distributed with this run.

Several recovery programs are included on the autozap diskettes.

GLOBAL 2000 ENHANCEMENTS

This Autozap run includes enhancements to Nominal Ledger V6.0 issued as zaps NL-6.0A-05 and NL-6.0A-08.

Zap NL-6.0A-05 introduces statement profiles, allowing lists of companies, departments and account types (queries) to be maintained and used for account selection in statements.

Zap NL-6.0A-08 improves the performance of Installation and Create New Year under later versions of GSM, allowing data areas to be created across networks.

These enhancements are detailed in full in document MNLNV6.0 which can be ordered free of charge from the Production department.

GLOBAL PAYROLL

Autozaps PR-6.4-49, PR-6.4-50 and PR-6.4-51 are included on this

autozap run and introduce the legislative changes required from April 1997. The changes include the support of employer NI holiday (ENH) and NI Class 1A schemes on the DSS submissions file, the introduction of different employer rebates for Contracted Out Salary Related pension Schemes (COSRS) and for Contracted Out Money Purchase Schemes (COMPS) and new rates files for the changes in tax, national insurance, SSP and SMP rates for the new tax year.

These changes are detailed in full in document MPRNV6.4 which can be ordered free of charge from the Production department.

GLOBAL 3000 ENHANCEMENTS

This autozap run includes the following enhancements to the Global 3000 applications:

BILL OF MATERIALS V4.2

Zap ZB-4.2-03 introduces a new enquiry and report showing Net Allocated Stock.

WORKS ORDER PROCESSING V4.2

Zap ZK-4.2-06 introduces a 'print' status flag on works orders which is displayed in Works Order Entry.

Zap ZK-4.2-14 introduces a new enquiry and report showing Net Allocated Stock.

Zap ZK-4.2-19 introduces a facility to set up workstations as 'sub-contracted' so that no activity is scheduled at other workstations on any day the works order is at a contract workstation.

Zap ZK-4.2-21 introduces the option to post costs at either the actual cost (as at present) or at the standard cost. An additional report 'Completed Works Order Proof List' has been included to show the actual and standard costs of recently completed works orders.

PURCHASE ORDER PROCESSING V4.2

Zap ZO-4.2-44 (in conjunction with zap ZM-4.2-58) introduces the ability to analyse purchases to a new 'Cost of Purchases' account defined at product group level where costs are not posted to General Ledger.

SALES ANALYSIS V4.3

Zap ZT-4.3-02 significantly improves the performance of report generation.
