

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT844, 7 OCTOBER 1997

Global 2000 Cash Manager V6.1 now available

Global Business Systems is pleased to announce the release of Global 2000 Cash Manager version 6.1. This software is issued under the normal Global 2000 Mainstream release strategy and supersedes Global 2000 Cash Manager version 6.0A.

DOCUMENTATION

A revised Cash Manager manual is available and will be automatically distributed with each purchase of the software. For those users upgrading from Cash Manager V6.0A an additional Release notice will be supplied covering the upgrade procedure between the two versions of the software.

SERVICE

Standard service arrangements apply – submit Hotline faxes as normal.

PRICING

Pricing is as for Cash Manager version 6.0A.

SUPPORTING MODULES

All interfaces supported by Cash Manager version 6.0A are supported under version 6.1. The Nominal Ledger autoposting routine has been repackaged for the new version of Cash Manager. This repackage is available on the installation diskettes or via Autozaps.

Record Layouts (RL) version 2.0P, providing support for the new file structures in Cash Manager version 6.1, is also released.

HOW TO ORDER

Fill out an order form in the normal manner (please refer to your Reseller Handbook), quoting module code CB and version 6.1. For Record Layouts quote the module code RL and version 2.0P.

FEATURES

Global 2000 Cash Manager version 6.1 contains the following new features:

- extensive changes to the dialogue of bank statement reconciliation
- session based posting to Nominal Ledger
- a new autoposting interface
- changes to transaction entry dialogue

In addition, a number of outstanding reported bugs have been fixed.

Please note that the version 6.0A feature to allow partial reconciliation of a payment or receipt has not been included in Cash Manager version 6.1.
