TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT862, 14 APRIL 1998

Autozap Run 7079

This is a three monthly run of Autozaps which contains all zaps since run 7076. A copy of the reseller enquiry is included in this run.

Two recovery programs are included on the Autozaps diskettes.

Product	Zap	Program
Global 3000 Sales Order Processing V4.3	86	IRS
Global 3000 Sales Order Processing V4.3	93	R-500Q

Refer to the zap descriptions for further details.

GLOBAL 2000 ENHANCEMENTS

Zap AC-2.0B-01 ensures that Autoclerk is Year 2000 compliant.

Zap BF-1.0-32 allows Global Finder to be installed on GSM/Unix and GSM/NT by recognising the 600 range of units.

Zap PB-6.2-11 introduces the ability to create BACS transmission files in host operating systems for submission to BACS via third party software. This enhancement is documented in technical bulletins GT847 and GT849.

Zap SL-6.3-89 allows Autopostings to be run under job management.

GLOBAL PAYROLL

Zap PR-6.4-66 must be applied before running Year End for 1997/1998. It transfers additional details to the End of Year file required for the P14/P60s and DSS submission file.

GLOBAL 3000 ENHANCEMENTS

Zap ZC-4.3-07 introduces the ability to consolidate postings to Cash Manager by batch or transaction via Autotransfer.

Zap ZI-4.3-42 enhances the Stock Availability report with an additional option to print serialised stock only.

Zap ZM-4.3-47 introduces a new parameter "Automatically create Company/Supplier details" to govern the input of orders and invoices in POP. It can be used to prevent the accidental entry of transactions for suppliers who do not trade with the currently selected company. This zap must be applied in conjunction with zap ZO4332.

Zap ZM-4E-02 enhances Sales Order Enquiries by introducing an option to view delivery details (courier, proof of delivery etc).

Zap ZO-4.3-31 enhances the Orders by Supplier report by introducing the option to exclude completely delivered order lines from the report.

Zaps ZO-43-33, ZP-43-76 and ZP-43-77 introduce the option to mark an account as "held". This prevents the entry of purchase orders and invoices in POP and all transactions in CL for held accounts.

Zap ZS-4E-07 enhances Price List maintenance. It allows the entry of an earlier expiry date when maintaining price list entries.

GLOBAL SYSTEM MANAGER

Attached to this bulletin is a document listing the latest BACNAT variants for every Global System Manager V8.1 Unix configuration, together with a list of those variants created during February 1998.
