

# **TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS**

**BULLETIN NUMBER GT892, 4 FEBRUARY 1999**

## **PC Workstation V8.1 now available**

This bulletin announces the release of PC Workstation V8.1. The main feature of PCWS V8.1 is the support of the FTRAN file transfer utility on GSM (Windows NT) configurations. However, in addition to this major feature, a number of small enhancements are included in this release. Please refer to the PCWS V8.1 Notes (MQXNV8.1) for further details.

The new PCWS software is available at a copy charge for all users on service who are upgrading from earlier versions of PCWS.

If you have any questions regarding the above information please contact the Service Centre at the City office.
