BULLETIN NUMBER GT904, 27 JANUARY 2000

Training Day for 16-bit Cobol to 32-bit Developers

Now that a large number of Speedbase developers have successfully converted their applications to 32-bit a second wave of Cobol developers are about to start their conversions to 32-bit. To assist in these conversions we are holding an FOC 1-day training course for 16-bit Cobol to 32-bit conversions.

Location: City Office (Farringdon Rd)

Date: 29-Feb-2000

Time: 09:30 - 17:30

Places are limited so we may have to restrict the number of delegates per reseller.

To book a place on the course please email alan@tissoft.co.uk.
