

TECHNICAL BULLETIN FROM GLOBAL BUSINESS SYSTEMS

BULLETIN NUMBER GT906, 14 MARCH 2000

Global and Windows 2000

This bulletin announces the formal certification and support of Global System Manager (Windows NT) and the Global Windows Workstation (GUI) on Windows 2000. All 3 of the currently released Windows 2000 products are supported:

- Windows 2000 Professional
- Windows 2000 Server
- Windows 2000 Advanced Server

A further bulletin will be published to announce the support of Windows 2000 Datacenter (sic) Server when this product is formally released by Microsoft.

All revisions of Global System Manager (Windows NT), configuration codes 5661 and 5663, are supported on Windows 2000 provided the BACNAT variant is V2.9 or later. This statement only applies to the GLSERVER.EXE and GLOBAL.EXE modules. The GLCONS.EXE and GSMCONS.EXE modules are still being tested.

The Global Windows Workstation (GUI) is supported on Windows 2000, provided the version is V2.3 or later.

Global System Manager (MS-DOS), configuration codes 5622 and 5623, is NOT supported on Windows 2000.

Global System Manager (Novell NetWare), configuration codes 5611 and 5613, is NOT supported on Windows 2000.

Please refer to the Global Configuration Notes for Windows NT (C5660) (MSMNV8.1) for further details. These notes are available on the Global Web-site.

If you have any questions regarding the above information please contact the Service Centre at the City office.
