Global 3000 V6.0 Cabinet Files

After a hiatus of several years a new set of Global Cabinet Files for Global 3000 V6.0 are now available.

Unlike all previous cabinet file releases the new *.GCF files will not be distributed on a new edition of the Reseller CD but can be obtained by logging a request with Global Support in the normal manner.

Note that these cabinet files should **not** be necessary to refresh existing Global 3000 installations but are available for new installs to reduce the number of Service Packs applied post-installation.
